Projects Experience

Clothina DressUp: E-commerce Clothing Platform [Link]

- Built a full featured e-commerce clothing app using React. Redux, Stripe API & Firebase. And Dockerized it.
- Implemented Shopping Cart, Product filtering, secure checkout (demo) and state management with Redux.
- Designed scalable frontend architecture with reusable component & optimized userflows.

Home Halt: Responsive hotel preview UI [Link]

- Developed a responsive hotel discovery & preview website using ReactJs and Contentful Headless CMS.
- Implemented dynamic content management for hotel listing imgs and description through CMS APIs.
- Implemented reusable UI components and responsive layouts to improve user experience across devices.

Chinese Virus Tracker [Link]

- Built a real-time COVID-19 statistics dashboard to visualize global pandemic data.
- Integrated external APIs to fetch live case statistics in the world (using leaflet maps).

Other Important Projects are:

Tele-Touch Home Automation
SQRA-No Proxy
Home Lock System (IoT)
FIFA Player Selling System.
Expense Manager App

Positions Of Responsibility

- Speaker & Coordinator of Android Workshop, Mobile Quiz, Enigma-2, Crptox at Galgotias College (2015 - 2017)
